WHITEPAPER

Shhh .zone

INTRO

Shhh... it's a secret, and it all starts behind the doors of our virtual reality rooms, where we connect the world and the' who's who' into live Virtual Reality interactions and create the opportunity to simulate your physical presence in the imaginary world.

We have created an exciting social media platform that will constantly deliver fun and entertainment, with the promise of effective and effortless accessibility for our users.

zone

Table of contents

Shhh zone

1. Who we are

We guarantee our user's anonymous transactions, powered by Blockchain technology, it helps preserve the identities of VR users and establishes item ownership in virtual worlds. By harnessing the same Blockchain technology, we have created the star of the show... **The 'Shhh Token'**. It is the beating heart of our platform. It offers privacy, simplicity and puts the power into the hands of those utilizing the Token.

We are the bridge that will connect content creators to their fans on a platform like no other. Our platform offers new and innovative ways of creating your own VR room, trading, earning and a huge range of monetizing tools making the experience all the more exiting for our users.

Content creators and users will get to have a truly immersive experience in VR having the same experience they would in the real world, now, just in the comfort of their homes.
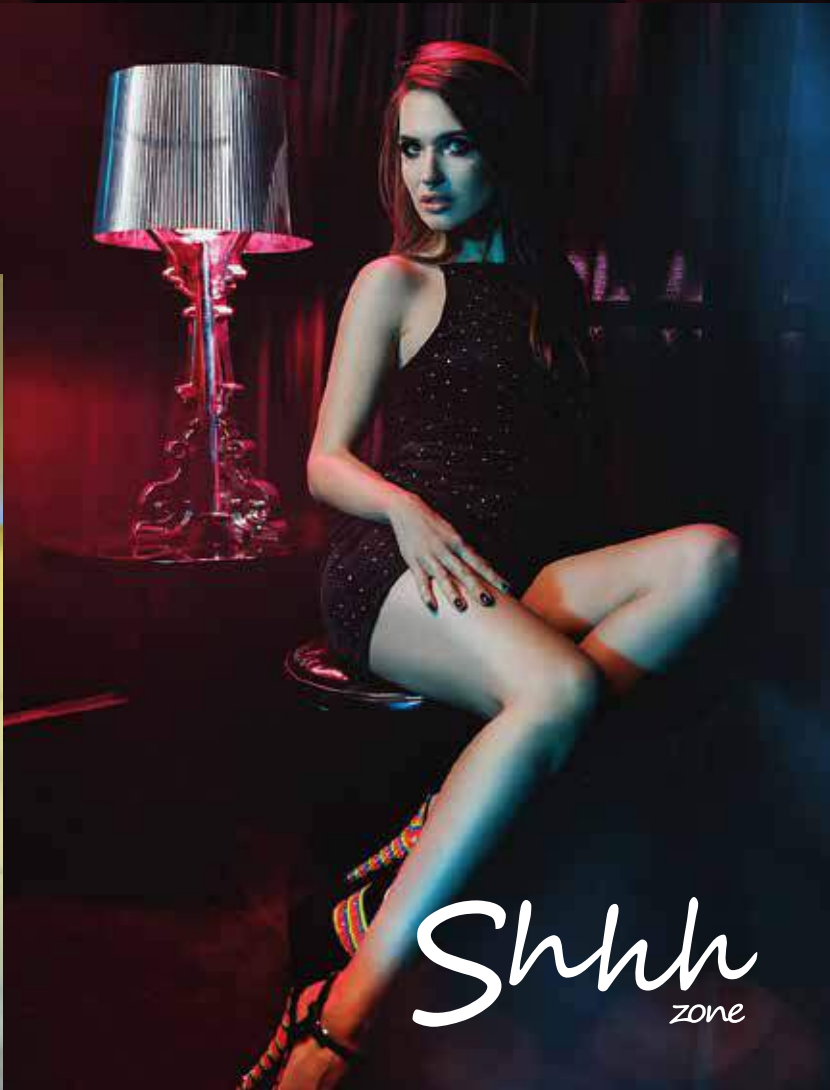

Shhh zone

2. NFT Genesis Collection

The one and only cyberpunk-inspired, animated collection of NFTs cards. A unique photo shoot with professional models, and that's just the beginning. More hyped-thematic sessions around the globe with more exotic models coming soon.

Shhh
zone

zone

3. VR Club Rooms

VR CLUB ROOMS

   Modern technology gives us unprecedented opportunities for remote virtual interaction.
We plan to create a private virtual club with rooms designed to bring fun to an absolutely new level.

   The VR club room is designed to work as a lobby. Users are expected to communicate, provide / receive motion-based entertainment and trade services in the VR club. The goal is to achieve the most immersive live club experience. Such mechanisms can be implemented with usage of maximized interoperability with present items (ei; chairs, glasses, vases, paper notes etc.), live 3D sound and controls for lovense-like devices embedded in VR environment and other applications.

VIRTUAL REALITY MARKERLESS MOTION CAPTURE RESEARCH REPORT

The VR technology market is currently experiencing a gigantic boom in sales. We constantly monitor all developing and up-and-coming technologies, both hardware and software. We are in constant reasearch for the best and most advanced suppliers of this type of tech.

Additionally, we are working on our own solutions. We are interested in an implementation that provides both users and developers with quality experience while also maintaining affordability.

MOVE Ai

Cloud based platform
Minimum cameras: 4
Output formats: Maya, MotionBuilder, Unreal, Unity, Blender (+ more)

Great proposal with a cloud based platform which can take the pressure off our infrastructure, with the use of several cameras. The Minimum requirement for video rate is 60FPS HD.

Possible integration:
Streaming video to the cloud platform then forwarding it to the users through our server. Then we would have to create VR player for end clients to traverse the cloud processed environment.

Shhh
zone

CAPTURY

Client based application.
Minimum cameras: 6 (Captury Live) / 1 (Singular Captury)
Output formats: FBX, C3D, BVH, CSV, Matlab, raw data

Captury is a client based software program that converts live camera streams to a 3D model, Which can work with a single camera. The suite has Captury Studio,which is capable of extracting motion models from the saved videos (multicam).

Possible integration
The integration is possible yet very complicated at the moment and it would need to go through numerous procedures not to mention the budget. However the technology itself looks interesting and promising and we will keep monitoring it in search of better implementation solutions.

CUSTOM „SHHHVERSE " SOLUTION

Custom created solution with use of special VR capture cameras along with its software. Most expensive but guarantees more integration and customization depending on chosen device.

Those devices come with software development kit (SDK) that allows us to create custom client side application to connect to our services with their VR output hardware.

Potencial devices:
Azure Kinect DK – Develop AI Models | Microsoft Azure
Stereo Depth Solutions from Intel RealSense
Store | Stereolabs

4. To infinity and beyond

Shhh has shown unshakable promise on a multitude of fronts in the VR world, such as content creation, Sales and NFTs but also with real token utility across the entire ecosystem. Our Social Media influences across various platforms will be helping us gain exposure and promoting us to the masses like no other Cryptocurrency coin based platform.

With many more avenues for additional revenue potential in video games, in-person chats and entertainment, we are incredibly excited about the unique possibilities of this project. If you believe in our vision and would like to be a part of a journey to shaping our reality; as a partner or by purchasing our pre-sale tokens, please get in touch with us via Telegram/Twitter.

We are a community of likeminded professionals who believe in paying it forward and helping those who would like to get ahead and move forward with the times. We are looking

We are engaged on working hard to ensure our 'Shhh...' token is stable and successful in the long run. Our buyers will be vested to bring stability to the token and avoid token dumps in the initial phase of our growth.

We are working alongside liquidity providers to launch a significant number of top tier exchanges, and between the close of the presale and the ICO, we will be bringing hundreds of more Social Media Influences and VIPs, at which point 'Shhh...' will start a globalised marketing campaign with the Influencers and exchanges prior to the Token becoming available and to strengthen and solidify our demand before we launch the 'Shhh' Token.

TEAM TOKENS
locked for the first year – released gradually withiN 24 month vesting.

COMMUNITY TOKENS
locked for the first year – released gradually within 24 month vesting.

ADVISORS TOKENS
locked for one month – gradually released within 12 Month vesting.

DEVELOPER TOKENS
locked for 3 months – gradually released within 36 months of vesting.

7. Utility

Our 'Shhh Token' is the intra-system digital currency for our online ecosystem. Where users can trade, sell, or stake their 'Shhh tokens'.

Blockchain ensures upscale security and simplicity of transactions; thus allowing its users to participate in a wide selection of activities i.e.: Interacting with other users through video chat rooms or VR rooms; creating, sharing and monetizing various content such as music, photos, videos and even NFTs (with its own dedicated app) to participate in games, contests,community voting and much much more!

VOTING

Members deciding to stake our token will have a right to participate in votings on the future of the platform. The power of the vote will be determined
by the amount of Shhh token stacked by the user.

LOOT BOX OPENINGS

Available periodically drops of boxes with treasures – key to opening them are Shhh tokens
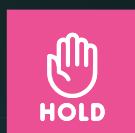

EVENT TICKETS

Event tickets – participation in the events will be granted to holders of the right amount of "event tickets". The more Shhh tokens You stake – the more tickets You farm.

NFT ON DEMANDS

Thanks to Shhh token and specially dedicated app You'll be able to capture special moments and create Your own piece of art.

Our Tokens will also be used by investors, VIPs and partners doing business with us, hence, solidifying real token utility in the long run, and provide permanent service and content as well as creating a constantly evolving ecosystem.

HOLD 2 ACCESS

Most exclusive levels of subscription are available only for Shhh Pay users. he amount of Shhh tokens locked in liquidity pool will determine the level of discount.

INVITE TO EARN

Take advantage of our exclusive referral program and get Your reward in Shhh toknes.

TIP`s IN SHHH

Support and reward Your favourite creators with Shhh tokens

UNLOCK

Most of the portal's unique features will only be unlocked with the Shhh token

AIRDROP ACCESS

Stake Shhh tokens to participate in periodic airdrops reserved for long-term investors only

Shhh
zone

8. Airdrops

Our aim at Shhh is focused on creating stable and constant growth for our one of a kind Cryptocurrency token. We are particularly interested in acquiring and anchoring, reputable long term investors, who will be a fundamental part in creating the core foundation of Shhh.

Our marketing strategies along with our tokenomics were designed to reward clients who wish to store or include our token into their portfolio vault.

In short, the higher the amount held and the longer they invest and/or save with our Shhh token, the greater the rewards will be. They will receive unequivocal access to specials, personalized deals, and first class access into the Shhh portal.

Below you will find our procedure pertaining to rewarding our investors by periodic Shhh token Airdrops to their profile

STARTERS AIRDROP

First marketing airdrop for the most active users supporting our project at its earliest stage – 500 winners.

GENESIS AIRDROP

To show our gratitude to early investors (those who buy and stake Shhh token) we will organize the biggest of airdrops. Snapshots will appear periodically and without any notice.

STAKERS AIRDROP

We're planning constant, periodical airdrops for Stakers – dependant on staking time and size of allocation.

Shhh zone

9. Going global

Shhh has partnered with some of the most influential heavyweights in the industry i.e.: Developers, Engineers, Graphic designers, Top Models, Photographers, online influences and we are not stopping there. We are striving towards holding the largest global social following of any other VR and Cryptocurrency platform out there.

The 'Shhh Token' will be listed on top reputable exchanges, making our token easily accessible to everyone and catapulting our platform to the forefront of the Metaverse.

10. The opportunity

Our presale will be launched in january on an amount currently lower than the market related cost, giving better opportunity to all early bird users. High purchased 'Shhh...' coins will have the opportunity to be a part of our VIP experience our little 'Cherry on the top'...The VIP Lounge, is an exclusive invitation to join us at the most prestigious and stupendous yacht party organised annually by Shhh. Having the VIP access will continuously provide users exclusive perks and rewards throughout their 'Shhh...' experience.

Shhh
zone

11. Team

We have put together a solid team of highly talented Entrepreneurs and experts from across the globe to drive 'Shhh...' into the future.

Our experts in NFTs and Blockchain are working closely with our awesome Social media influencers, our big cats in finance, the brilliant minds of our VR creators, and the keen eyes of our graphic designers breathing the breath of life into' Shhh... With our continuously growing team of experts, we are working around the clock to bring you unparalleled knowledge into the future of virtual reality, in a way like no other.

Founder KYC on main advertising platforms like Coinzilla is done and all KYC procedures like Certik and Exchanges or listings application will be done as per Roadmap.

Christopher Hankus – CEO, founder

Sebastian – CFO, blockchain expert
Jack – CTO
Lucas – CMO, marketing, 10 years' experience
Dominic – CSM, community manager, 5 years' experience

Gregory – blockchain developer, 15 years programming experience
Peter – frontend – developer, 20 years programming experience
